

# SUMAY TODE

## Full Stack Web Developer

+91 9168890790 | sumaytode2005@gmail.com | sumaytode.vercel.app  
Chandrapur, Maharashtra

### SUMMARY

I'm a dedicated and creative Full Stack Web Developer with a passion for building high-performing web applications. My expertise encompasses backend development with Node.js and Express.js, along with designing interactive frontends using GSAP. I thrive in collaborative environments, having led several hackathon teams to deliver impactful digital solutions

### EXPERIENCE

#### Full Stack Web Developer

##### Suvidha Foundation

08/2025 - 10/2025 | Chandrapur, Maharashtra

A non-profit organization focused on social initiatives and community support

- Completed a 2-month Full Stack Web Development internship at Suvidha Foundation (NGO)
- Developed DronAI, a platform offering free AI and Deep Learning courses
- Designed and implemented both backend (Node.js, Express.js) and frontend (HTML, CSS, JavaScript) features
- Collaborated with the team to improve performance and ensure smooth data handling
- Participated in NGO initiatives by contributing to social causes like clothing donation drives

### PROJECTS

#### RPJ Outdoor Play

rpjnet.vercel.app

RPJ Outdoor Play – A landing page for outdoor activities

- A fully responsive and visually engaging landing page built using HTML, CSS, and JavaScript
- Enhanced with smooth GSAP animations to deliver an interactive and lively user experience
- Showcases outdoor sports, tournaments, café events, and family activities with a clean, modern design

#### Price Comparison Across E-commerce Websites

A project aimed at helping users compare smartphone prices across different platforms

- A web platform that simplifies smartphone price comparison across major e-commerce sites
- Users can search for any smartphone and instantly view prices from multiple online stores
- Built with HTML, CSS, JavaScript on the frontend and Node.js, Express.js, REST API on the backend
- Database: MySQL Workbench for secure and efficient data management

### KEY ACHIEVEMENTS

- Enhanced User Experience**  
Increased user engagement by 30% through interactive GSAP animations.
- Successful Platform Launch**  
Developed a web platform for time efficiency of user
- Team Leading**  
Led few teams for hackathons and competitions
- Performance Improvement**  
Reduced webpage load time by 50% optimizing JavaScript.

### STRENGTHS

- Communication, Team Leading, Confidence and Discipline**  
Strong communication skills, ability to lead teams, confidence in problem-solving and loves to stay motivated

### SKILLS

Vercel	Gmail	Node.js	
Express.js	GSAP	EJS	HTML
CSS	JavaScript	REST	
Google Cloud	Tailwind	Bootstrap	
Nodemon	PHP	Ruby	MySQL
